- ✓ **Dynamics 365 Experts**
- ✓ **Personal Approach**
- ✓ **Continued Support**
- ✓ **End-to-End Management**
- ✓ **Microsoft Certified Partner**

HR for Dynamics is possibly the most innovative HR solution worldwide. Our customers benefit from exclusive advantages every day.

Employees gain more convenience

Your staff expect the same advances in technology in business they experience in their private life. This naturally includes the ability to access information via mobile devices, regardless of time and place.

Achieve economic advantages

The increase in productivity also has a financial impact. Your employees will use the time saved to take on more worthwhile tasks. This raises the profitability of your company.

Save time

Each piece of information will only be entered into the system once and is then available to anyone who needs to access it, or process it further. All processes that can be automated now run automatically.

Gain security in HR

Data is held in secure Microsoft data centers and access to employees' private data is managed by security levels and licensed functional roles. Solution is GDPR compliant.

"Dynamics HR Management has saved my company time and money, and most importantly it makes my staff much happier."
