

Migrate Office 365 tenants with MigrationWiz®

Merge or split tenants while maintaining coexistence and avoiding downtime with the industry's leading migration solution.

Tenant to tenant – MigrationWiz just works

Whether it's bringing in a new business unit after a recent acquisition, splitting up users in an existing tenant, or just cleaning house we've got you covered.

“

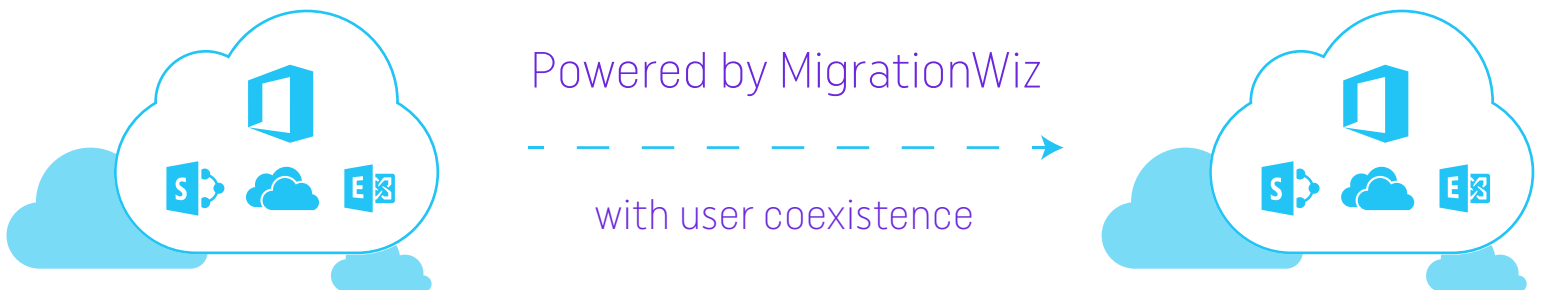

This tool allowed us to migrate from a combined domain to a split domain and did it without the time-consuming headache typical of these kinds of operations on Office 365. We were able to automate huge swaths of the process and spend more time double checking and supporting any user-side issues as opposed to being fully dedicated to the migration process itself.
